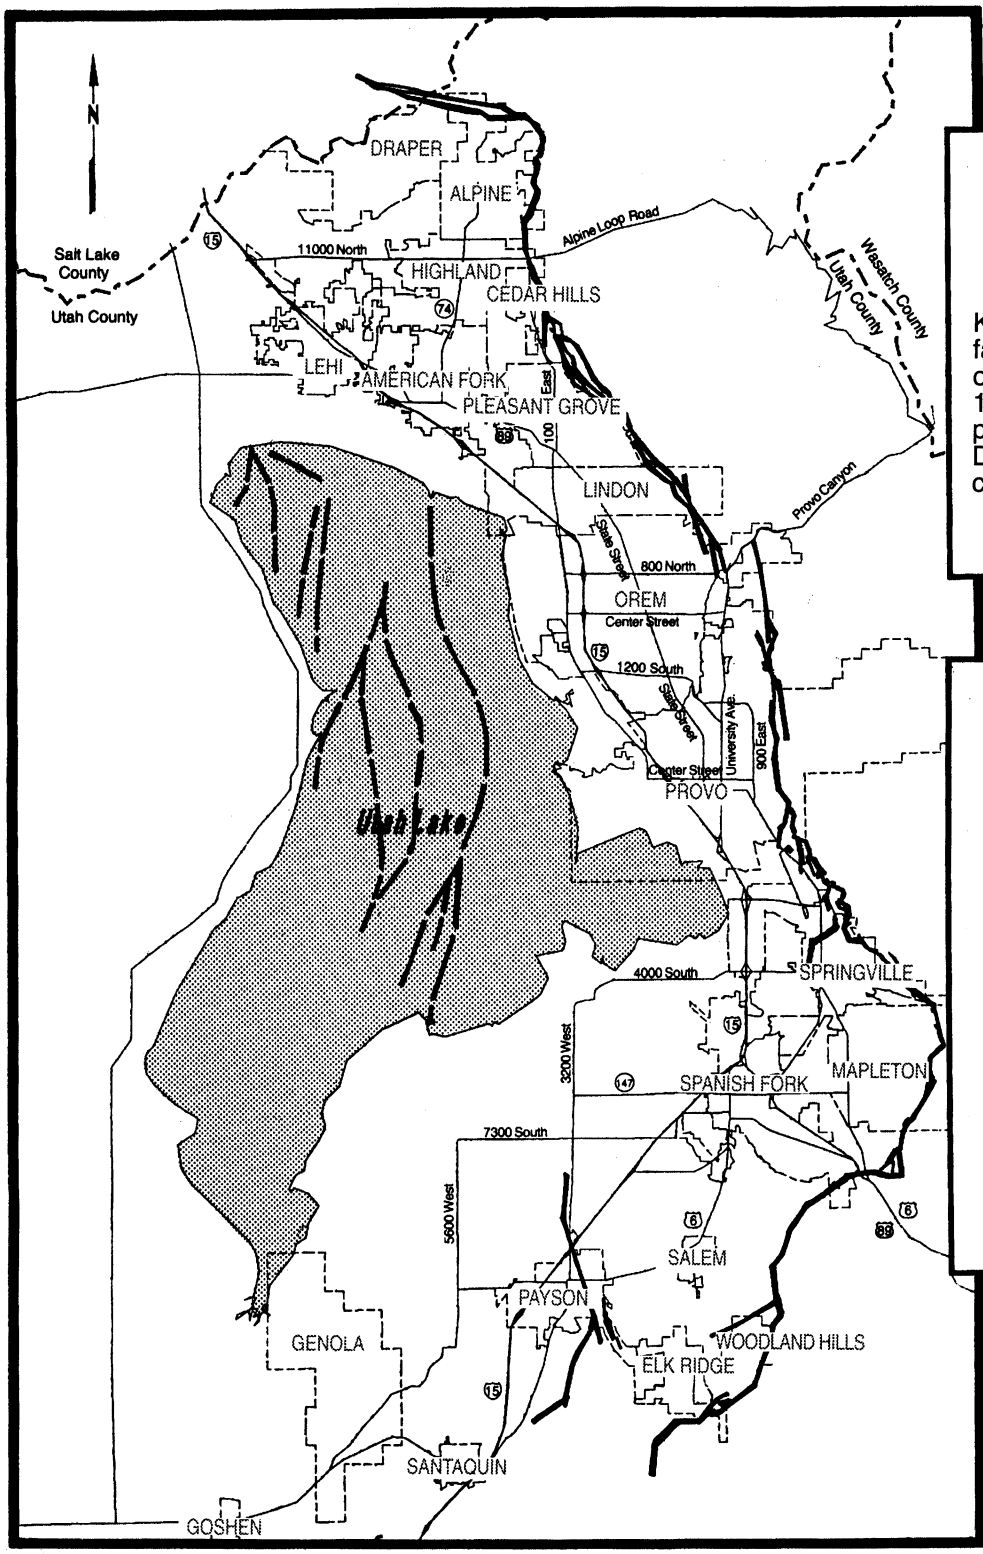
EARTHQUAKE FAULT MAP OF A PORTION OF UTAH COUNTY, UTAH

UGS Public Information Series 11



EXPLANATION

Known trace of fault with evidence of Holocene (about 10,000 years ago to present) movement. Dashed where concealed or inferred.

This map is for general reference only. Detailed maps are available at the Utah County Planning Department.

Location of faults compiled by Robert M. Robison from Michael N. Machette, U.S. Geological Survey Map MF-2109 and I-2095, 1989; and Willis H. Brimhall and others, Mountainland Association of Governments Technical Report no. 3, 1976.

0 5 Miles

Digital compilation by Bruce J. Hall, Utah County Geographic Information System through Utah County Planning Department.
