This map is a compilation of existing digital and hard-copy county maps and data, based on information provided in Utah Geological Survey (UGS) Circular 106 (see report for list of county and technical data sources); the UGS does not warrant the content or accuracy of the original maps.

The GIS data provided in Circular 106 is for use at 1:24,000 scale only. This overview map at a scale of 1:200,000 is for general representation only, and should not be relied upon for other purposes.

Special studies for critical facilities should evaluate all hazards, even where outside special-study areas are shown on this map. This map does not preclude the need for site-specific study.

Although this product represents the work of professional scientists, the Utah Department of Natural Resources, Utah Geological Survey, makes no warranty, expressed or implied, regarding its suitability for a particular use, and does not guarantee the accuracy or completeness of the data.
