OPEN-FILE REPORT 608
UTAH GEOLOGICAL SURVEY
a division of
Utah Department of Natural Resources
2013

INTRODUCTION

This open-file report makes available raw analytical data from laboratory procedures completed to determine the age of rock samples collected during geologic investigations funded or partially supported by the Utah Geological Survey (UGS). The references listed in table 1 generally provide additional information such as sample location, geologic setting, and significance or interpretation of the samples in the context of the area where they were collected. This report was prepared by Apatite to Zircon, Inc. under contract to the UGS. These data are highly technical in nature and proper interpretation requires considerable training in the applicable geochronologic techniques.

The data and methods are provided in the following links:

[1831_UPb_Zircon_AgeData.xls](#)

[1835_UPb_DetritalZircon_AgeData.xls](#)

Table 1. Sample numbers and locations.

Sample #	7.5' quadrangle	UTM Easting NAD83-12	UTM Northing NAD83-12	Reference
1831	Ophir	392508	4469197	Kirby (2012), Clark and others (2012)
1835	Faust	379819	4448468	Kirby (2010b), Clark and others (2012)
		UTM Easting NAD27-12	UTM Northing NAD27-12	
RV-46	Davis Knolls	383931	4436403	Clark and others (2012)
RV-48	Vernon	362036	4447797	Kirby (2010a), Clark and others (2012)

DISCLAIMER

This open-file release is intended as a data repository for information gathered in support of various UGS projects. The data are presented as received from Apatite to Zircon, Inc. and do not necessarily conform to UGS technical, editorial, or policy standards; this should be considered by an individual or group planning to take action based on the

contents of this report. The Utah Department of Natural Resources, Utah Geological Survey, makes no warranty, expressed or implied, regarding the suitability of this product for a particular use. The Utah Department of Natural Resources, Utah Geological Survey, shall not be liable under any circumstances for any direct, indirect, special, incidental, or consequential damages with respect to claims by users of this product.
