The Seeley fire covered approximately 75 square miles on the Wasatch Plateau. We show Emery Counties, Utah, at a scale of 1:24,000. The purposes of the map and accompanying name, and comments.

**ACKNOWLEDGMENTS**

We thank the following for assistance in various aspects of the project: Tony Kopp, Utah State University, et al., for preparing the map; Mike Wallace, Utah State University, for GIS and cartographic input and support; Pete Kilbourne (Manti-LaSal National Forest) for their technical review comments. Corey Unger and Jay Hill provided helpful suggestions on scoping the mapping and providing reviews of the map. We also thank the following organizations for their assistance: University of Utah's Department of Geography and the Geologic Survey—Tools for assessing landslide hazards in California, Denver, U.S. Bureau of Reclamation Seismotectonic Report 86-7, 132 p.
