Disclaimer

This open-file release is intended as a data repository for information gathered in support of various UGS projects. The data are presented as received from ALS Minerals and ALS Chemex and do not necessarily conform to UGS technical, editorial, or policy standards; this should be considered by an individual or group planning to take action based on the contents of this report. The Utah Department of Natural Resources, Utah Geological Survey, makes no warranty, expressed or implied, regarding the suitability of this product for a particular use. The Utah Department of Natural Resources, Utah Geological Survey, shall not be liable under any circumstances for any direct, indirect, special, incidental, or consequential damages with respect to claims by users of this product.

The views and conclusions contained in this document are those of the authors and should not be interpreted as necessarily representing the official policies, either expressed or implied, of the U.S. Government.

INTRODUCTION

This open-file report makes available raw analytical data from laboratory procedures completed to determine the geochemistry of rock samples collected during geologic mapping of the Tooele 30' x 60' quadrangle and the Copperton (formerly Lark) 7.5' quadrangle partially supported by the Utah Geological Survey (UGS). Additional information about these samples is available in Clark and others (in preparation) and Biek and others (2007). These geochemical data were prepared by ALS Minerals and ALS Chemex under contract to the UGS. These data are highly technical in nature and proper interpretation requires considerable training in applicable geochemical techniques.

The data can be accessed electronically as an attachment to the PDF file of this report and is available at https://ugspub.nr.utah.gov/publications/open_file_reports/ofr-665/ofr-665.xls.

ACKNOWLEDGMENTS

Geologic mapping of the Tooele 30' x 60' quadrangle was funded by the UGS and U.S. Geological Survey, National Cooperative Geologic Mapping Program through USGS STATEMAP award numbers G13AC00169, G14AC00214, G15AC00249, and G16AC00191. The Copperton 7.5' quadrangle mapping was funded under STATEMAP award number 04HQAG0040.
